Sample Configuration:

1. Application
The 1725T Offset Rotating Pyramid is designed to work in conjunction with the EZ Adapt Series. This component series has the unique ability to adapt to any configuration of alignment necessary for the lower extremity prosthetics. The 1725T is designed to give 12.6mm offset when combined with our bases 1721T, 1214T & S, 1221S, 1223T. It will also become a offset double ended adaptor when combined with 1705T. Set screws should be torqued and thread locker applied after alignment is complete.

2

2. Description
The Offset Rotating Pyramid is a Titanium adaptor with a 12.6mm offset male pyramid on one end and threaded pylon on the opposite end. This titanium adaptor gives the ultimate advantage in strength and versatility when space is limited. This light space saving device also gives the added benefit of rotation.

3. Warranty
Warranty applies only when the product is used as manufacturer's recommendations. ST&G offers a 2 year warranty on this product.

4. Declaration of Conformity
ST&G as manufacturer declares that the 1725T, Offset Rotating Pyramid, conforms to the requirements of Council EU 2017/745 (MDR). ST&G products are manufactured and tested for a particular weight and activity impact level. Use by another user for whom it was not originally manufactured may cause injury and voids any written or implied warranty. The liability shall fall upon those that resale/provide the product to anyone other than the original user delivered to. Not to be resold by private party.

Tighten all the screws, which are side by side, using the torque wrench
