2	1. Application The 1847T, 4 Hole Pyramid with round base is to be exclusively used for the prosthetic fitting of lower extremity amputations. 2. Description The 4 Hole Connector Pyramid with round base is to be used to connect any modular component with 4-hole threaded system with pyramid receiver system (e.g. tube clamp). The round base reduces edge pressure square base components can generate. It has a centered pyramid. 3. Warranty Warranty applies only when the product is used as intended without modification, following all manufacturer's recommendations. ST&G offers 2 years warranty.

3	4. Declaration of Conformity ST&G as manufacturer declares that the 1847T, 4 Hole Connector Pyramid with round base conforms to the requirements of Council EU 2017/745 (MDR). ST&G products are manufactured and tested for a particular weight and activity impact level. Use by another user for whom it was not originally manufactured may cause injury and voids any written or used to connect any modular component with 4-hole threaded system with pyramid receiver system (e.g. tube clamp). The round base reduces edge pressure square base components can generate. It has a centered pyramid. *Notice* All screws should have a thread locker applied and torqued to specifications.
