

The PRIME PLUS Foot provides K2 users a cost-effective, yet highly functional multi-axial foot with a variety of features utilizing a high-tech double keel composite construction and integrated foot shell. The PRIME PLUS is design for spirited walking that has enhanced heel compression for increased foot flat at loading response to mid-stance, allowing for ease of single limb support, walking stability, and smooth dynamic roll over into swing due to the curved dual dynamic keels. It is the evolution of the Prime for the Active K2 user!

Features and Benefits

- Low profile
- Dual High Tech composite curved keel for optimized movement
- Compliant heel and split keel helps initiate foot flat to increase walking stability on uneven terrain providing multi-axial stability.
- foot shell and spectra sock included
- Integrated pyramid
- Split Toe Design
- Water Proof design foot shell drain hole
